

PUPPY MEMBERSHIP (Younger than 1 year)

\$419.99
+ HST

As a member, you'll gain access to exclusive membership pricing. These budget-friendly options promote early diagnosis and treatment, helping your puppy stay healthy and happy during the first year of their life.

PUPPY VACCINE EXAMS | **\$0.00** *Reg. \$96.01*

Puppies require multiple vet visits in their first several months in order to receive the necessary vaccines and to ensure they are developing properly. With a membership, the cost to see a veterinarian at these visits is free. At your first appointment, your veterinarian will work with you to identify which vaccines your little one should receive based on their lifestyle and health factors. Your puppy will then get started on a vaccine schedule to start building immunity and keep them healthy and safe from disease.

FREE

VACCINATIONS | **\$13.65 Per Vaccine** *Reg. \$27.30*

The exact number of vaccinations recommended for your puppy will depend on their lifestyle. However, in order to start their life with optimal immunity to the most common diseases most dogs require vaccine visits at around 8, 12, and 16 weeks of age. At each visit, one or two vaccines are usually administered.

ADDITIONAL EXAMINATIONS | **\$48.00** *Reg. \$96.01*

Your puppy will likely require additional vet visits during their first year of life, whether for minor injuries, routine care, or other concerns. This membership gives you peace of mind knowing that you can call and book your little one in for a doctor's assessment at any time during the year for half of the regular price.

SPAY OR NEUTER | **\$335.17** *Reg. \$670.34*

Your puppy's spay or neuter will include: pre-anesthetic surgical examination, pre-surgical medication and fluid treatment, along with "human standard" surgical protocols, full technician monitoring (ECG, blood pressure, O₂ saturation & temperature), and take-home pain medications.

50%**

SURGICAL SAFETY BLOOD WORK | **\$123.69** *Reg. \$247.39*

Before your puppy's spay or neuter, we will recommend a basic blood profile that allows our team to identify and plan for risk factors that may affect their surgery, anesthesia, and recovery. This blood work also establishes a baseline to be used for comparison in the future if your dog ever becomes ill.

NAIL TRIMS | **\$11.06** *Reg. \$22.11*

Long nails are painful for dogs. Untrimmed nails affect the way that they walk and limit them from doing all the activities they love. Regular nail trims with lots of love and treats help to form a positive association with the process, and encourages good foot health for your furry family member.
